

# TOLA

## GRANDUCA

### Nero d'Avola

Granduca is a red wine made from organic grapes native to Sicily, grown in the Jato Hills, west of Palermo. The vineyards are situated on rocky and fertile soil 1300ft above sea level, where they are blessed with Mediterranean Sea breezes that moderate the temperature and permit a long, slow ripening for the grapes.

This full-bodied wine of exceptional quality and limited quantity is one that will please and perhaps surprise wine connoisseurs.

This wine has been barrel aged thirty six months and offers a wonderful bouquet full of blackberry and raspberry. On the palate it does not disappoint, adding dimensions of earthiness, herbal nuances, layers of flavors with a pleasant lingering finish.

It has an outstanding personality expressing the full strength and vitality of a harsh and generous land.

From our Bosco Falconeria vineyards we create a pure Nero d'Avola wine blending the history, traditions, sensations, harmonies and ancient perfumes of our colorful and warm island.

It has a dense ruby color, hints of fruit with prunes and cherries. The palate is very concentrated with a strong structure.

#### Food & Wine:

Excellent with red meat or hard cheeses. A nice companion to grilled meats, roasted meats, and spicy cheeses in particular..

#### Grape(s):

Nero d'Avola 100%

#### Grape Harvest:

Hand picking in boxes, in the second decade of September

#### Vinification:

Fermented in stainless steel and aged in French barrique for three years
