SANCERRE

Domaine de la Tonnellerie: Gérard et Hubert Thiroit proprietors of this 13-hectare estate located in Bue just North of Nevers, Central Loire in the Sancerre appellation, in the Loire Valley, France. Bue is famous for its hills, perfect for growing grapes, with great sun exposure and protection from the elements. The soil there is rich in minerality, composed mainly of clay and chalk, as well as small rocks, which give the wines their acclaimed typicality. Hubert Thiroit is the 4th generation running the estate, producing classic Sancerre from a family with a wine making history stretching back over 300 years on his 9 hectares of Sauvignon Blanc the family owns.
