

## Six Hats Viognier

### Citrusdal, South Africa

### Fair Trade

#### Fair Trade

Is a system of product certification and regulation that aims to ensure that the workers throughout the chain of production receive fair treatment with respect of wages, working conditions and participation. Fair Trade addresses injustices of conventional trade, which traditionally discriminates against the poorest, weakest producers. Six Hats success has allowed the building of a community hall, creating a farm crèche and pre-school, purchasing sport equipment for the community, improving the housing on the farm as well as providing education bursaries and school fees for further education.

#### Vinication

The vineyards are meticulously farmed to produce wines with great depth. Grapes were machine harvested and only the free run juice was used. Settled and inoculated with selected yeast strains in stainless steel tanks. Fermented at 12 °Centigrade in stainless steel tanks.

#### Origin & Climate

Citrusdal is situated about 170km north of Cape Town, in the heart of the citrus growing region of South Africa, also known as the getaway to the Cederberg, the floral splendor of Namaqualand. The soil is mainly made of Koffieklip & Oak Leaf. Vineyards are located high up in the Cederberg and Piekenierskloof Mountains, where the climate tends to be cooler with a longer ripening season; cold winters, often with snow and temperate summers.

#### Tasting Notes

Dried peach, apricot and floral aromas, with medium complexity. Ideal companion to a variety of cuisines from shellfish and sushi to fragrant and spicy oriental dishes.

#### Chemical Analysis:

Alc: 14%

T/A: 6.22 g/l

RS: 3.8g/l

PH: 3.4
